

FREEDOMWORKS NATIONAL OMNIBUS SURVEY

Question 01

As you may know, a new health care law was passed in 2010, known as the 'Affordable Care Act' or 'Obamacare'. This law contains two major mandates: an 'employer mandate' that requires employers to offer affordable health insurance to their workers, and an 'individual mandate' that requires all Americans to purchase a health insurance policy or pay a fine. The Obama Administration has delayed implementing the employer mandate for at least a year. Do you favor or oppose also delaying the individual mandate for at least a year? (IF FAVOR/OPPOSE, ASK) And is that strongly (favor/oppose) or somewhat?

FREEDOMWORKS NATIONAL OMNIBUS SURVEY

Question O3

As you may know, Congress is set to pass a spending bill as a stopgap measure called a 'continuing resolution' that funds the government and avoids a temporary government shutdown. Would you prefer Congress to pass a continuing resolution that INCLUDES tens of billions of dollars in funding for implementing Obamacare, or a continuing resolution that does NOT include funding for Obamacare at this time?
